PROFILE

BCA student and freelance developer who works at the intersection of design, code and content. Since 2025 I have been building responsive websites, managing social media presences of brands and running my own digital agency, **webtang.exe**. I lead projects end to end: from client conversations and planning to design, build and consistent delivery. Comfortable wearing the developer, creator and manager hat, often in the same week.

EXPERIENCE

Freelance Web Developer & Social Media Manager

2025 – Present

- Design and develop modern, responsive websites for brands and individuals using Next.js, React, TypeScript and Tailwind CSS.
- Plan, create and manage social media content: monthly content calendars, post design and copy, and steady publishing.
- Handle client communication, project planning and delivery independently, from first brief to live launch.
- Ship performance-minded, accessible, maintainable code that clients can keep growing.

Founder & Lead, [webtang.exe](#) (Digital Agency)

2025 – Present

- Run a digital agency offering website development, social media management, content creation and brand presence services.
- Own strategy, team coordination and quality control across projects; direct work with clear briefs and requirements.
- Built the agency's brand identity, content and online presence from scratch.

SELECTED PROJECTS

AirOS · Desktop Application

Computer Vision · Windows

- Windows desktop app that uses computer vision and hand gestures to control the system, built as a commercial product.

These are my top projects, not all of them. More work lives on my [GitHub](#) and [portfolio](#).

KT's Fashion · Client Project

Next.js · TypeScript · Tailwind CSS

- Designed and built a women's fashion storefront: category-based catalogue, featured and new-arrival collections, seasonal edits and product detail pages. [Live site](#) · [Code](#)

Personal Portfolio · Personal Project

Next.js · TypeScript · Framer Motion

- Personal brand site with a curated work section and a GitHub feed that updates itself automatically. [Live site](#) · [Code](#)

AirCanvas · Computer Vision

Python · OpenCV · cvzone

- Gesture-driven virtual canvas that lets users draw in the air using hand tracking. [Code](#)

EDUCATION

Bachelor of Computer Applications (BCA), Online

LEADERSHIP & STRENGTHS

- Leadership & Team Management:** lead projects as product owner, set direction, coordinate work and hold a high quality bar.
- Content Creator:** create written, visual and video content that sounds human and stays consistent with a brand.
- Ownership & Communication:** manage clients, timelines and deliverables independently; self-driven and detail-oriented.
